

Flexible, In-House Personalization and Direct Marketing Solutions

Unlike some of our competitors who claim to provide comprehensive services, we aren't brokers for a myriad of sub-contractors. The huge majority of our work is done at our facility by our own employees.

We are also flexible by design. Large and diverse enough to imagine, produce and deliver successful, multi-faceted projects on a national scale, we are also small enough to care and take ownership of each program we handle. Either way, when you work with us you are never just a project or quantity, you are our partner.

Personalized Products & Services for Loyalty & Membership Programs

1•2•1 Marketing Services Group, Inc. (1•2•1 MSG) was founded in 2000 as a fulfillment house specializing in highly complex personalized fulfillment kits with plastic cards. Since then, we've added a wide range of capabilities to support the loyalty club and membership programs that are our core business.

Our name – 1•2•1 Marketing Services Group – was chosen to reflect our philosophy of personalized marketing to a segment of one. At 1•2•1 MSG, clients' needs drive everything we do. Everyone in the production process – beginning to end, top to bottom – has a vested interest in each client's success. Sure, our corporate culture of ownership and "can do" attitude is reinforced by our midwestern work ethic, but in the end it comes from our emphasis on the value of each person in the chain... which connects directly back to our clients.

1•2•1 MSG is a family-owned business with a wide array of in-house capabilities to support loyalty and membership marketing.

Partner with us and extend your marketing reach.
